SKILLS

FRONTEND

Languages

JavaScript (ES6+), TypeScript

Frameworks & Libraries

React.js, React Native, Next.js, Redux
Toolkit, TanStack Query

UI & Styling

HTML5, CSS3, Tailwind CSS, Bootstrap,
CoreUI

BACKEND

Development

Node.js, Express.js, RESTful APIs

Databases

MongoDB, Mongoose, MySQL

TESTING

Jest, Vitest, React Testing Library,
Playwright

TOOLS

Git, GitHub, Postman, PM2, CI/CD, Agile

SUMMARY

Software Developer with 2+ years of experience building scalable web applications using React and TypeScript, with hands-on backend development using Node.js, Express.js, MongoDB, and MySQL. Skilled in RESTful API development, performance optimization, automated testing, and delivering maintainable end-to-end features in Agile environments.

EXPERIENCE

HATTUSSA IT SOLUTIONS | SOFTWARE DEVELOPER

Apr 2024 - Present | Puducherry, India

- **Developed full-stack web applications** using React.js, TypeScript, Node.js, Express.js, MongoDB, and MySQL across event management, booking, messaging, and administrative platforms.
- **Built and integrated RESTful APIs and backend services** covering authentication, database operations, file uploads, notifications, scheduled jobs, business logic, validation, and structured error handling.
- **Engineered scalable frontend modules** using TanStack Query, TanStack Router, Redux Toolkit, reusable components, and custom hooks to support complex data-driven workflows.
- **Implemented secure and validated application workflows** using JWT, role-based access control, React Hook Form, and Zod, ensuring protected access and reliable data handling.
- **Improved application quality and production readiness** through performance optimization, unit and integration testing with Vitest and Jest, end-to-end automation with Playwright.

PROJECTS

LOTUS GARDEN | REACT 19, TYPESCRIPT, TANSTACK QUERY, TANSTACK ROUTER

Event Management & Admin Platform

- **Developed a scalable event management platform** supporting event scheduling, ticketing, bookings, catering operations, image workflows, and automated Excel reporting.
- **Built a type-safe frontend architecture** using React 19, TypeScript, TanStack Router, and TanStack Query with protected routes and efficient server-state management.
- **Implemented complex forms, business validations, and automated tests** using React Hook Form, Zod, Vitest, and Playwright across critical administrative workflows.

CLEANERZ - GIG PLATFORM | REACT.JS, REACT NATIVE, COREUI, REST APIS

Service Marketplace Platform

- **Developed a multi-platform service marketplace** connecting customers and service providers through booking, scheduling, onboarding, and task-management workflows.
- **Built a React.js administrative dashboard** for managing bookings, assignments, rescheduling, services, providers, vendors, and e-commerce operations.
- **Developed customer and provider mobile applications** using React Native and integrated RESTful APIs for authentication, booking management, and status synchronization.
